

# Paulina Guerrero

Dear NMED staff,

My name is Paulina Guerrero and I am a resident of Las Cruces, NM. I am submitting this comment due to concerns about Project Jupiter. I believe this project should not be allowed to be built as it has failed to prove its claims that it will not impact our land and its people. As a new mom, I want to ensure I establish myself in a place that will provide a great quality of life for my family. And I can only imagine all parents feel the same when considering where their children will live, whether it's with them or at college when they're older.

I urge you to prioritize our future.

Sincerely,

Paulina Guerrero
