

Patricia Foschi

I was stopped on the street and polled by Yucca Growth Infrastructure who asked me for my opinion on Project Jupiter. I said I was undecided. Instead of recording that response, they recorded that I was in favor of the project. If this is their usual behavior, there are a lot of false-positive responses being recorded. I am outraged by this behavior and, consequently, I am stating here that I AM OPPOSED TO PROJECT JUPITER. I urge the NM Environment Department to NOT APPROVE this project.
