

Maria Kosowska

With project jupiter you are just worsening the planet. Using so much money for ai while it could be used to actually help other people. We are losing the earth, and this project is helping us worsen the planet. Stop project jupiter most people who agree with it is a small amount and they were probably brain washed with you saying that its great, which its not. I still have a life to live, but now I don't think im going to live a long and great life. I think I myself might just end my life as the world is not getting any better. Stop planet jupiter, only greedy money hungry people want it. Stop being pathetic
