

Alex Paz

To whom it may concern, please deny Yucca Growth Infrastructure LLC any and all permits they request. The people of New Mexico DO NOT want this data center. It is becoming increasingly apparent how detrimental data centers are to the environments in which they are placed. We the people of New Mexico do not want our land contaminated or our water wasted. Whatever they have told you about the "ecofriendliness" of the data center is a lie. This data center will use unethical amounts of both power and water and will severely weaken the ecosystem of this great state. Please have a spine, have courage, and do what you know is the right thing; deny this permit. If you allow this permit, you are betraying the state of New Mexico, which you serve.
