

Natalie B

I want my children to grow up in a safe world, with bountiful nature and one that is full of resources! Just like past generations have gotten to. We (current young and future generations) should not have to pay for the detrimental mistakes that the people in power are making, solely to profit off of!!!

New Mexico Environment Department should give the public an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
