

Isaiah poblano

I am Native American and I don't not support project Jupiter. This land is sacred and the water it holds, having a data center will not help in any way possible with our limited water we have for our community. Our community is in a drought already enough especially with how limited rain we get. I Isaiah poblano, grandson of former governor of Zuni Norman coeeyate, does not support this project.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
