

Holly Lindley

Reject big corporations wanting to take land. Fight for future generations to have clean air and water. Money is not important when your grandchildren won't have clean water or air. Fighting for New Mexico's resources should be the highest priority. Instead of making big corporations and faceless companies more and more money.

"The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually."
