

Lu Muilenburg

As an 18 year old I am terrified about my future. The people of the world do NOT want AI data centers taking our water. We have more than enough means to create a better future, yet all big tech cares about is profit.

New Mexico Environment Department should give the public an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
