Project Jupiter hasnt been given a 60 day comment period from the public, bloom is a dangerous company that is known for illegally dumping hazardous waste and Approving this permit would be government-sponsored environmental racism as residents of Doña Ana County are already disproportionately impacted by environmental pollution. A fuel cell plant of this size has NEVER been constructed before. Project Jupiter's power plant would be 1,000 times larger than the biggest fuel cell plant Bloom Energy has ever built. The way this data center is going to impact us is not worth it, please reconsider this project
