This is something wrong! Having to find out about this through TikTok is disturbing, why isn't this going around with older people that don't use social media. Citizens of New Mexico should know what would happen to their home and the future of New Mexico. Taking control of a home of hundreds of people who truly care about the environment is something cruel. I do not agree with Project Jupiter and I'm sure millions of other won't agree either but they don't know what's going on because people don't know about it. You know it's wrong because your keeping it a secret. Let the people of New Mexico know what's going on! Disgusting who ever is approving and agreeing with project Jupiter.
