

Courtney Jones

We as a society need our water more than we need ai, please stop the nonsense. Ai has no real life benefits, and it may seem like the world is full of water, but it's not. Please put an end to this ridiculous task.

New Mexico Environment Department should give the public an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
