

Finn Kuna

Project Jupiter is a waste of resources our state needs. This plan needs to come to a full stop before more damage that cannot be undone happens. New Mexico needs affordable housing, jobs, and resources for the homeless & addicts. AI is not a magical tool, it's a scam and a lie being sold to us as something else.

"The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually."
