

Shanley Pluff

The data center commissioned by NMED is extremely dangerous to the world's already unstable climate, and it will destroy any chance the US has to stabilize the climate. Please reconsider and stop the spread of harmful data centers and unnecessary AI.

"The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually."
