

Callan Guthrie

I've heard very bad stuff about this project Jupiter and I believe it needs to be stopped. The whole reason I believe that is because we need water and rivers are drying up because of ai and local communities especially in poverty areas aren't getting the amount of water they need anyway.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
