

## Nekita Walker

I am writing to express my support for Project Jupiter and the meaningful benefits it will bring to our community.

Project Jupiter is expected to drive significant economic growth in Doña Ana County, including the creation of approximately 4,000 construction jobs and 1,500 project-supported positions. In addition to job creation, the project includes substantial financial commitments \$50 million to repair and improve local water systems, \$360 million in direct support for schools, infrastructure, and local services, and \$6.9 million dedicated to workforce development initiatives. These investments will also support valuable community programs, including the Boys & Girls Club of Las Cruces, access to clean drinking water, the local community college, and habitat restoration efforts.

Given these significant contributions, I respectfully urge the New Mexico Environment Department to approve this important project.

Sincerely,

Nekita Walker
