I was born and raised in New Mexico alongside every generation of my family. Every year I see the Rio Grande yield less and less water, completely drying up before this Summer even began. How am I supposed to support a data center that will use MILLIONS of gallons of water daily when my state, my home, has been in a water crisis as long as I have lived? WE THE PEOPLE REJECT PROJECT JUPITER. WE THE PEOPLE WILL FIGHT AND RESIST FOR THE SAFETY OF OUR HOME. FUCK THE DATA CENTER, FUCK YOUR MARGINS, AND FUCK THE SURVEILLANCE STATE. PEOPLE OVER PROFIT.

"The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually."
