

Glenn Landers

I am writing to express my opposition to Project Jupiter, which I believe offers no significant benefits to our community.

Project Jupiter will not bring substantial economic growth to Doña Ana County. and will deplete vital water supplies. Claims that Jupiter will provide \$360 million in direct support for schools, infrastructure, and local services, and \$6.9 million to fund workforce development initiatives have absolutely nothing to do with the air permit, even if they are to be believed. The project will emit tons of harmful air pollutants and 10 million tons of greenhouse gases each year. It need to be stopped

I urge the New Mexico Environment Department to disapprove this permit. I also urge NMED to hold a public hearing on this -application because of the great public interest.

Sincerely,
Glenn Landers
