

Mikki Bore

My name is Mikki. I am a Florida resident, living in Orlando , and I am writing because I am concerned about the risks and harms Project Jupiter poses to New Mexicans and the effects it might have on the whole world. I am submitting this comment to urge the New Mexico Environment Department to reject Yucca Growth Infrastructure, LLC's air permit application for the YGI Micro-grid in Doña Ana County. I am a 15 year old girl, in high school trying to graduate to pursue my future career, I am worried about this project because it can have many negative side effects. For example using up all our fresh waters, displacing many animals, and overall pollution to our atmosphere. I urge the NMED to outright reject YUCCA Yucca Growth Infrastructure, LLC's air permit application for the YGI Microgrid. I ask the department to please hold a bilingual public hearing near the Santa Teresa community, so that residents can learn about the risks associated with fuel cell technology. Sincerely, Mikki Bore
