

Arron Bussell

There were several people at the Santa Fe place mall asking shoppers about how they feel about Project Jupiter. I let her know my grievances and that I do not support it. She said she would put that in the survey. She then took down my name and email and used it to make a fraudulent comment expressing support for the project.

There are people making fake and fraudulent comments in support of this project on behalf of others. This should not be allowed and should be investigated. It seems possible that Yucca Growth Infrastructure LLC is fraudulently creating fake comments or hiring others to do so via third party or otherwise.

Here is the content of the fake comment they used to misrepresent me:

"I am writing to express my support for Project Jupiter, which I believe offers significant benefits for our community.

Project Jupiter is poised to bring substantial economic growth to Dona Ana County. It is anticipated to create 4,000 construction jobs and 1,500 project-supported jobs. Furthermore, Project Jupiter has committed \$50 million to help repair, upgrade, and improve local water systems; \$360 million in direct support for schools, infrastructure, and local services; and \$6.9 million to fund workforce development initiatives along with supporting the Boys and Girls Club of Las Cruces, clean drinking water, the local community college, and habitat restoration.

I urge the New Mexico Environment Department to approve this important project."

--

These frauds don't deserve the opportunity to harm our community and should be investigated and prosecuted to the fullest extent the law allows.
