

Claire Kaminski

My name is Claire Kaminski and I am a citizen of the United States. It is a privilege to be a thriving species on this planet, it is amazing that we are such intelligent beings who have the capabilities to make amazing huge changes in the world. What isn't amazing is how these greedy, selfish, ignorant people don't care about the future, or what comes after us. They only care about what is going to benefit THEM at this very moment. Project Jupiter isn't a project that will benefit humanity, it won't benefit wildlife, and it certainly won't benefit the health of our planet. I'm usually not one to make everything about the environment, but this project may as well be a nuclear bomb based on the FACTS of what it is going to do to our planet. Again, it is AMAZING that we live here, so why ruin it. Why actively ruin something magical so that you can have a couple more bucks in your pocket. And not to mention, LISTEN TO THE PEOPLE, NO ONE WANTS THIS!!!!!! This is OUR tax dollars and we actively voice in unison how we want none of this but yet you continue to take and take and just beat America's people down so that we can be voiceless. Stop making us voiceless and for once please listen to our cries, and the environment's cries and DONT build this center.
