

Mugi Brown

This project is absolutely unnecessary! We as humans have lived perfectly fine without AI but suddenly we need it? This is not the needs of the people, but for the rich, egotistical, idiotic class who are incapable of doing anything without the labor of the working class. This will not only destroy our environment further, but harm innocent communities as well. No one needs this project!! STOP PROJECT JUPITER!!

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
