We only have one earth!! Climate change is real and I for one am TIRED of seeing what we are doing to our poor home. It doesnt belong to only humans. We must be fair and think about not just us but put local ecosystems and environments. Think about the animals that you are hurting, this is there only home too!!

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
