

Kurt Depner

Wow, you sure are burying the truth in this comments section. Yucca Growth Infrastructure? This has Project Jupiter and big tech dystopia written all over it. No we don't want AI, data centers and your resource gobbling bullshit to feed Oracle's insatiable greed. It's a lie that this a great job creator. Never mind the effect this will have on our electric bills and water table. Did you know that El Paso Electric is asking the regularly body for an 80% rate increase? 80%?!? Hmmm... I wonder why. Take your AI slop elsewhere. We don't want it.
