

Sumayah Mustafa

I absolutely do not support Project Jupiter and I find it disgusting that Doña Ana Counties representatives find it to be an acceptable project when we are in a desert, the Rio Grande is currently dry and air quality is already subpar, it is clear the best interest of the citizens in Doña Ana County is not in mind.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied given Bloom Energy's history of illegal dumping hazardous waste.

If the permit is not denied, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.

Approving this permit would be government-sponsored environmental racism as residents of Doña Ana County are already disproportionately impacted by environmental pollution.
