

Ruika Yashimoto

AI IS THE WORST. We only have one planet, and all AI, but especially generative AI puts our planet in jeopardy. Screw data centres and let's prioritize the environment! The public should be given an additional 60 days to review and comment on the air quality allowing so community members can participate equitably. The air quality permit application should be denied given Bloom Energy's history of illegal dumping hazardous waste. If the permit is not denied, a public hearing needs to be held in Santa Teresa , in both English and Spanish, with an option to participate virtually. Approving this permit would be government-sponsored environmental racism as residents of Doña Ana County are already disproportionately impacted by environmental pollution. For years, Doña Ana County has been called a 'nonattainment' zone—this means our air quality does not meet federal government rules.
