Project Jupiter will be wildly harmful to our state and our people. Its impact directly opposes NMED's mission. Shame on any of our government officials that are supporting this and shame on the groups and government offices supporting this. The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably. The air quality permit application should be denied given Bloom Energy's history of illegal dumping hazardous waste. If the permit is not denied, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually. Approving this permit would be government sponsored environmental racism as residents of Doña Ana County are already disproportionately impacted by environmental pollution.
