

Zhoey McEvoy

We can live without data centers, humans lived without ai for decades. We don't need new ai tech coming out every week. It ruins our planet and makes global warming even worse. Stop ai, stop data centers, stop climate change.

New Mexico Environment Department should give the public an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
