

Marin n/a

I am a citizen of Silver City and I strongly appose project Jupiter. This risks the livelihood of our future and future generations. This project will ruin New Mexico. You are putting our health at risk. The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably. The air quality permit application should be denied given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism as residents of Doña Ana County are already disproportionately impacted by environmental pollution.
