The project does not help but rather harm the planet that we should be protecting. The money should be spent on bettering the planet and communities not harming. AI is not needed we humans have the capacity to learn by ourselves and be better than any machine.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
