We don't need Ai, We don't need more Data centers, what we need is a healthy planet to survive on, and by building more data centers we are actively taking that away. You won't care until we run out of water, food, and other resources completely. Don't ruin other peoples future because you think this is the best for yours.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
