

anonymous anonymous

if it can harm the environment or the earth itself then stop it immediately, please. there's a lot going on in the world rn, there's even a genocide happening in Palestine, Sudan, Congo, Nigeria etc.... the environment is suffering and we must stop it or else we wouldn't have a place we can call a home, and it's the earth. so, stop the project, please.

stop hurting the environment, that's all.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
