Our economy is getting worse and worse with each passing day. Project Jupiter in the long run will do absolutely no good for the economy and the state of our world. There are many people who will be harmed by this, young and old. You don't care about all of this since you are not being affected yourself. I won't be affected either. It is ridiculous to not care about those who will be, however. So, I speak for those who can't when I say this. Project Jupiter needs to be abolished.
