

Ivyn Montgomery

project Jupiter will cause major changes to the water around it and also release lots of carbon dioxide in to the air and atmosphere leading to worse air quality and global warming and we don't need anymore of that.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
