

Sarah Lengstorf

Can we please stop ruining our environment and killing ourselves and neighbors for the sake of profit? This would ruin our community, both currently and for many generations to come. Cease and desist! Nobody wants this. The air quality permit should be denied.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied given Bloom Energy's history of illegal dumping hazardous waste.

If the permit is not denied, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.

Approving this permit would be government-sponsored environmental racism as residents of Doña Ana County are already disproportionately impacted by environmental pollution.
