Project JUPITER its not only wrong but also mean. We haven't understand that the whole world isn't ours, we also share it with other species, living beings who doesn't know why are we destroying their planet. And also, the way that influencers are being part of this project just shows that nothing cares if they generate money, what do I mean? , it doesn't care if someone is dying, if we are destroying our natural resources, if thats the value to get more money "it is okey " but guess what? WE CAN NOT EAT MONEY

"The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually."
