Given Bloom Energy's history of illegal dumping hazardous waste this permit should be denied. The people do not want this to go through, the people should be able to have a say on things that affect their own lives. If the permit is not denied, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually. For society to thrive you must always remember who you are really fighting for, who you swear to protect, you protect the people, you protect your citizens! Listen to them!

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
