

Brian Bea

I'm writing to share my support for Project Jupiter and what it could mean for our community.

This project brings a real chance for economic growth in Dona Ana County. It's expected to create 4,000 construction jobs and 1,500 ongoing jobs a big deal for local families and businesses. On top of that, Project Jupiter is putting real money into the community: \$50 million to repair and upgrade our local water systems, \$360 million going directly to schools, infrastructure, and local services, and \$6.9 million toward workforce development, the Boys and Girls Club of Las Cruces, clean drinking water, our community college, and habitat restoration.

Opportunities like this don't come around often, and I think it'll make a real difference for Dona Ana County for years to come.

I hope the New Mexico Environment Department will approve this project.

Sincerely,
Brian Bea
