

Abigail Brinkhuizen

This is disgusting behavior, we are choosing to put data centers before our own planet, before various communities and before our own animals those which we should protect and rather not harm. It is their planet and also ours but it was first theirs and this data center will be detrimental in all manners and I do not support this selfish atrocious behavior.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
