

Georgia Cotrell

I'm writing to express my complete and utter repudiation of Project Jupiter.

Project Jupiter purports to bring economic growth to Doña Ana County. While it is expected to create 4,000 construction jobs and 1,500 project-supported jobs, this would come with an abominable price-tag:

- * MILLIONS OF TONS OF CO2 EMISSIONS

- * BILLIONS OF TONS OF WATER

..and this latter, in a county--Santa Ana, NM--that receives 8-9 inches of rainfall annually.

I urge the New Mexico Environment Department to DISAPPROVE this repellent project.

Sincerely,

--Georgia Cotrell

PS: The Oracle Corporation funds Project Jupiter, and has young people outside grocery stores in Corrales, NM, explaining how Project Jupiter is going to bring jobs to Santa Ana. That's how Silicon Valley rolls, folks--still continuing to paint the phony-baloney rainbow future while the planets drying up by the minute...
