

David Henner

Many commenters here have cut and pasted the "official Project Jupiter argument" taken from their website. I did the same thing, but I fixed it:

I am writing to express my opposition to Project Jupiter, which I believe presents significant danger to our community.

Project Jupiter is poised to bring substantial damage to Dona Ana County. It is anticipated to create unrestrained air and noise pollution and will be a great drain on scarce water resources. Furthermore, Project Jupiter has committed thousands of dollars to influencing legislators and the public at large into accepting unspecified proposals. It is nice that they say they will support the Boys and Girls Club of Las Cruces, clean drinking water, the local community college, and habitat restoration, however none of this is guaranteed contractually. The project is being initiated without going through adequate approval processes and without sufficient public input.

I urge the New Mexico Environment Department to REJECT this disastrous project.

Sincerely, David Henner
