I think our planet deserves to have clean, fresh air. Big corporations need to at least think of their consequences and stop their actions. They're already destroying the lives of underwater creatures, and now they're going after us and other lives on this earth. The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
