

Margaret Neely

The permit project Jupiter is seeking needs to be denied. Air equality will be destroyed, and it will affect New Mexico as a whole. The amount of heat this data center will generate will also affect the air. This project is endangering plants, animals, and humans. We need clean air and water, and this data center will take away both. Imagine the stupidity of not knowing how important clean air is. They don't care about us. YOU have to. The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably. The air quality permit application should be denied given Bloom Energy's history of illegal dumping hazardous waste. If the permit is not denied, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually. Approving this permit would be government-sponsored environmental racism as residents of Doña Ana County are already disproportionately impacted by environmental pollution. For years, Doña Ana County has been called a 'nonattainment' zone— this means the air quality does not meet federal government rules. Do the right thing
