

Jadelynn Turner

the lives of the civilians and animals who live near where the data center is planned to be built. Depend on the fresh water, clean air, stable weather conditions, and resources around them to stay alive and healthy. If you choose to continuity to build the data center the corruption it'll cause to the community. Will fall onto you hands, it'll be an example to other companies to build more data centers. To the point where fresh water is one of the most sacred resources. I will not allow you to destroy the world. So I'm asking you to stop the construction of the data center. Either way the people will win. The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably. The air quality permit application should be denied given Bloom Energy's history of illegal dumping hazardous waste. If the permit is not denied, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually. Approving this permit would be government-sponsored environmental racism as residents of Doña Ana County are already disproportionately impacted by environmental pollution.
