

Uma Chang

This data center will harm the earth and its people. It will cause generations of lung cancer and other diseases from its pollutions. It is a parasite and blight that must be stopped. For the sake of the earth and the people, its stewards, please listen to the people and stop this horrendous project before it's too late.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
