

Blas Villanueva

The complexity of this issue demands that time for comments be extended for the public. The use of water for cooling this AI/data center will result in a loss of 3/4 of the water used as evaporation and New Mexico will never get it back. We are a DESERT state and have no water to waste. Examples of this are nationwide, as noted at The use of microgrid laws by such a huge development violates the intention of the microgrid law. Do not allow this to happen. The negative impact of project Jupiter will fall affect minorities in the area of Dona Ana County while the benefits will accrue about of state. These harms include noise, air, and water pollution. DO NOT APPROVE PROJECT JUPITER.
