STOP CONSTRUCTION OF DATA CENTRES! They are destroying our world, using our clean water, contributing to global warming, decreasing air quality, and eliminating nature areas. This needs to stop. It is killing the Earth and hurting all people and animals. Stop construction now and fight to preserve and save our environment.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
