

Madeline Brown

I am a resident of Sandoval county and ask the Air Quality Bureau of NMED to deny Yucca Growth Infrastructure's air quality permit. I believe it is in the best interest of New Mexicans and future New Mexicans to deny this permit and protect our air and land. Bloom Energy's has a history of illegal dumping of hazardous waste; cancer causing chemicals, heavy metals and toxic compounds. Bloom Energy has been fined a total of \$1.4 million dollars for illegally storing, transporting, and dumping this hazardous waste in several states AND falsifying records over many years to cover it up. This fuel cell gas plant will release toxic chemical pollutants and 10 million tons of carbon dioxide into our air. Please protect our state and deny this permit. Thank you.
