

Rmoni _

We have lived before Ai. WE were born BEFORE Ai and we can live without it. Ban it before our earth is effected from it, even if we as one weren't effected, our earth will and without it, who are we? You can do this for you, but how long until it affects you too? The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
