If we let project jupiter happen it will literally destroy our earth. AI uses up millions of gallons of water and if this continues we wont have any water in the next few years

PLEASE dont let this happen. So many people deserve a future, and so do the animals. Have you noticed how many animals have gotten close to extinction since the start of AI? TOO MANY. Stop trying to expand AI its awful for the planet. This is our only planet we cant mess it up.

"The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually."
