

Guenevere McMahon

I am opposed to Project Jupiter. Their unethical behavior--including submitting falsified comments supporting their project and failing to honor their legal commitments to Dona Ana County is enough to know that this enterprise will greatly damage air and water quality in Southern NM. People's rights should always outweigh the demands of data centers. This application MUST be denied.

"The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually."
